- *Join us for Wine & Hors d'oeuvres*

Dear Economics Alumnus:

The Economics Department at San Francisco State University is delighted to invite you to our first Alumni Event this year. The highlight of the event is a panel discussion on the current economic crisis participated by current and emeriti faculty. This event will be an important opportunity for you to re-connect with your favorite faculty members and old friends, and also to meet new faculty. Our faculty, students and staff are excited about the prospect of meeting our alumni and sharing fond memories of their student lives while at San Francisco State University. You, our alumnus, however, have the most important role, and we sincerely solicit your participation in this important event. We truly believe that this forum will provide excellent opportunities to (re)build valuable networks, provide inspiration to our current students, and give you a chance to see how the department has developed since the time you were here! We look forward to seeing you.

Sincerely yours,

Sudip Chattopadhyay, Ph.D.
